ABOUT ME

A Multidisciplinary Creative

I am a multidisciplinary student, blending performance, research, and creative writing in a quiet dialogue. I am currently pursuing Master of Library & Information Science (MLISc) at Jadavpur University. Following my Bachelor of Library & Information Science (BLISc) at Jadavpur University and previously completed B.Sc. (Life Sciences) from Presidency University. As a vocalist and actor, I live through sound and story; as a writer, I shape thought into words. Through photography and painting, I try to capture fleeting emotions. This space gathers all these paths—my performances, publications, artworks, and academic journeys—into one evolving narrative.
